## FOOD SUPPLY IS SCANT

Filipinos Resorting to Desperate Means to Replenish Their Stock.

## SMUGGLERS ARE CAPTURED DAILY.

Crews of Two British Ships Seized and Imprisoned by the Natives. American Prisoners Fare Well.

Manilla, Sept. 4.—Many Spanish prisoners are escaping from the Filipinos and bringing into the American lines stories of hard treatment. They agree that the Filipinos are exceedingly short of rations, and that a large section of their troops is reduced to the use of homemade black powder.

The natives are trying every scheme to get food and munitions from Manilla. Daily arrests are made for attempts to smuggle contraband of war through the American lines. In one case a casco, with a cargo of bamboo poles, was overhauled, and the poles were found full of rice.

Two British vessels, the Lacson and the Nero, were driven by stress of weather into the harbor of Dagupan, the northern terminus of the Dagupan railway. The crews were imprisoned, but on their protesting that they were British subjects the insurgent authorities permitted one man, named Edwards, to come to Manilla, promising to release the crew of the Lacson if Edwards secured from the British consul at Manilla a statement establishing the nationality of the crew. A similar concession was made to the crew of the Nero.

Edwards says he saw several American prisoners who were better fed than the Spaniards or the Filipino soldiers. Moreover, they were not compelled to work, as the Spanish prisoners are.

A force of native police has begun to patrol the city of Manilla, co-operating with the provost guard, whose lack of knowledge of the language and the resorts of native criminals had given opportunities for burglary, an industry which has been flourishing of late. The new force includes many members of the old force and some insurgents who had grown tired of fighting. It has already done good work in running down native criminals.

The American secret service recently found a Filipino spy in Calamba, and shot him down when he resisted arrest.

**Proclamation Unsatisfactory.**  
Havana, Sept. 4.—The consensus in Havana regarding the census proclamation can now be ascertained with a reasonable degree of accuracy. When the proclamation was first made known all elements were apparently satisfied. Now the only ones who appear to give it full approval are Cuban officeholders. The Independents, as the members of the party advocating independence are called, say that President McKinley should have made some declaration regarding absolute independence for Cuba.

### Honor to Goethe.

Chicago, Sept. 4.—More than 100 Chicago German societies, having 12,000 membership, celebrated the one hundred and fiftieth anniversary of the birth of Goethe. Over 35,000 persons attended the celebration at Sunnyside park. A specially selected orchestra of 100 pieces played selections from Faust and other numbers inspired by Goethe's poems. A male chorus composed of 1,500 voices, selected from the Chicago German singing societies, sang the poet's songs.

### German Day.

Indianapolis, Sept. 4.—Fifty-two German societies of this city, with 500 guests from outside points, celebrated "German day" in accordance with an elaborate program that included a magnificent street parade in the forenoon of 3,000 members of the various German societies, and in which were many floats descriptive of great events in American history in which German-American citizens have taken part. Senator Fairbanks was the principal speaker.

### Fighting a Prairie Fire.

Deadwood, S. D., Sept. 4.—A fierce timber fire is raging about 10 miles south of this place and threatening a wide extent of country. Everything is dry as tinder and a gale is blowing from the south. The situation is very serious. People have turned out from the immediate vicinity to fight the fire, but thus far their efforts have met with little success.

### Movements of Jiminez.

Cape Haitien, Sept. 4.—Juan Isidro Jiminez, the revolutionary aspirant to the presidency of the republic of Santo Domingo, left Caimanera on board the George S. Crose for Baracoa, from which point he will proceed to Port-au-Prince and then to Puerto Plata, where he is impatiently awaited.

## JURY DISAGREES.

Former Banker Dreyer Escapes Conviction at Chicago.

Chicago, Sept. 4.—The jury sitting in the case of Edward S. Dreyer, the former prominent banker, charged with failing to turn over to his successor as treasurer of the West Park Board \$319,000 of the board's funds announced that the jury could not agree. With the crash of the National Bank of Illinois, numerous smaller institutions, among them E. S. Dreyer and company, went under. Dreyer had deposited the board funds in the National Bank of Illinois and his defense was the loss of the money was through no fault of his.

### Congressman Lentz Spoke.

Providence, R. I., Sept. 4.—The first of the series of meetings arranged by the New England Bimetallic league in the interests of bimetallism was held at Crescent park. The session was held in a large open area. The platform was decorated with the national colors, together with those of Great Britain, Ireland, France and Cuba. Ex-Governor Altgeld, Judge James P. Tarvin of Kentucky and Congressman John J. Lentz of Columbus, O., were the speakers. The latter's sarcastic references to President McKinley, his arraignment of the Philippine war and his eulogy of Aguinaldo as one of the greatest men of the century were applauded.

### Trust Conference.

Chicago, Sept. 4.—The committee on arrangements for the conference on combinations and trusts, which will meet in this city on Sept. 13-16, has thousands of answers that have come to the Civic Federation headquarters in reply to a series of questions sent out over the country some months ago to the various commercial, industrial and manufacturing interests. It is expected that the report of the special committee on data will be a valuable contribution to the conference. A large attendance is anticipated.

### League of Municipalities.

New York, Sept. 4.—The program for the coming convention of the League of American Municipalities at Syracuse, Sept. 19-22, contains 21 papers, covering all of the important municipal questions of the day. Papers on the municipal ownership question will be presented by Mayors Johnson of Denver, Tafel of Cincinnati, Robinson of Colorado Springs, and Pierce of Marshalltown, Iowa, on the affirmative side, and Robert P. Porter of New York and M. A. Genuender of Columbus, O., on the negative side.

### Deputy Sheriff Killed.

London, Ky., Sept. 4.—A report is current that Deputy Sheriff Lewis of near Manchester was killed in Clay county. Several weeks ago, in Manchester, Deputy Stubblefield was shot by Mart Smith, the latter escaping capture. He went to his home and sent word to the county officials that he would never attend court alive, therefore it would be fatal for persons to attempt to take him. Lewis went to serve papers on him and was shot dead as he approached Smith's house.

### Fatal Railway Collision.

Ashland Ky., Sept. 4.—Fifteen miles west of here, on the Lexington branch, near Denton, Chesapeake and Ohio passenger trains Nos. 22 and 23 collided while running at a high rate of speed. Both engines were demolished. Engineer Edward Wheeler and Charles L. Robinson, both of Huntington, W. Va., were killed, and two trainmen hurt. The passengers escaped.

### Policeman Shot.

New York, Sept. 4.—Policeman Patrick O'Keefe was shot through the head and chest by Michael Farrell in Farrell's saloon, a notorious dive. O'Keefe will die. Farrell was placed under arrest after a long chase and a desperate fight, in which he made a further effort to do murder.

### Ohio Democratic Campaign.

Springfield, O., Sept. 4.—Hon. W. R. Burnett announced that W. J. Bryan will come to Ohio and cover the state with McLean. James Seward of Mansfield has been selected for chairman of the executive committee, and ex-Mayor Constantine of this city is slated for treasurer.

### Weekly Bank Statement.

New York, Sept. 4.—The weekly bank statement shows the following changes: Surplus reserve, decrease \$3,187,275; loans, decrease \$3,126,900; specie, decrease \$4,287,200; legal tenders, decrease \$985,400; deposits, decrease \$8,341,300; circulation, increase \$223,400. The banks now hold \$9,191,250 in excess of the legal requirement.

### Mexican Money For Orient.

San Francisco, Sept. 4.—The steamer Doric sailed for Hongkong and way ports and in her specie tank she carried nearly a million Mexican silver dollars consigned to several Chinese business houses. The silver almost entirely fills the vessel's specie tank.

## HEARTFELT WELCOME.

Philadelphia Receives Grand Army Veterans With Outstretched Hands.

## CITY OVERFLOWING WITH VISITORS.

Route of the Great Parade a Solid Blaze of Color and Light. Auspicious Opening of the Encampment.

Philadelphia, Sept. 4.—The thirty-third annual encampment of the Grand Army is on here. The veterans have reached this city and found the people with outstretched hands.

Admiral Sampson, with his fleet of fighting ships, arrived, and this event marked the beginning of the week's celebration.

The city is crowded with strangers, while the incoming trains from all directions are bringing thousands upon thousands to help swell the throng. The route of the veterans' parade, which takes place on Tuesday, is one solid blaze of color and light. Not a building but has its front encased in the red, white and blue. The Avenue of Fame is the most magnificent piece of decoration ever attempted in this city. There are two classes of columns. The larger and more ornate are about 50 feet in height and are placed at the street corners. The smaller columns, about 25 feet high, stand on each side of Broad street between the larger columns.

The columns are connected by festoons of bunting and laurel, and strings of incandescent lamps give a brilliant effect at night. The north and south fronts of the City hall will be illuminated by massive electric light pieces its entire length, representing the G. A. R. badge. Rows of incandescent lights extend from the top of Penn's statue, 55 feet above the street level, to the roof and around the structure, giving the effect of an immense column of brilliant light.

Camp Sexton, near Belmont, in Fairmount park, contains 1,600 tents. It is intended to accommodate those posts of the Grand Army which prefer to camp out rather than be quartered in halls, armories or private houses. The tents will shelter 10,000 veterans.

The big parade on Tuesday will be in 12 divisions. Post No. 1, from Rockford, Ills., the oldest post in the Grand Army, will head the line. As the veterans pass around the City hall they will be reviewed by President McKinley, who is expected to arrive here Monday night, accompanied by Secretaries Root and Gage and Postmaster General Gage. There will be over 42,000 men in line.

A question of absorbing interest to Grand Army veterans which will be decided during the encampment, is the election of commander-in-chief and other officers. Two candidates prominent in the field are Albert Shaw of Joe Spratt post, Watertown, N. Y., and Judge Leo Rassieur of St. Louis. "Private" James L. Dalzell of Company H, One Hundred and Sixteenth Ohio, is also a candidate. Others urged by their friends are Colonel W. C. Johnson of Cincinnati, acting commander-in-chief, and Brigadier General Charles Miller of Venango, Pa.

The naval veterans enjoyed the distinction of giving the first street parade during the encampment. Theirs took place Monday afternoon and was a unique feature of the demonstration. The old salts who fought under Farragut tramped shoulder to shoulder with the younger veterans of the Spanish-American war.

Next Friday the naval parade will take place. Admiral Sampson's fleet will be anchored in the Delaware river opposite the city, and a long line of vessels will pass around the fighting ships. President McKinley and cabinet officers will review the warships from the revenue cutter Gresham. Members of the commission of the imperial Russian navy, stationed here, superintending the building of a battleship, and a cruiser will participate in the naval pageant.

Elaborate preparations have been made for the entertainment of President and Mrs. McKinley. The front rooms of an entire floor have been set apart for their accommodation at the Hotel Walton, and nothing has been left undone that will add to their comfort.

Sioux City, Ia., Sept. 4.—St. Joseph's Catholic church, a \$75,000 structure, was dedicated Sunday with most impressive ceremonies. Many priests were in attendance. Rt. Rev. Richard Scanlan, bishop of Omaha, acted as dicator. Archbishop Ireland preached the morning sermon.

### Pleasure Yacht Capsized.

Toledo, Sept. 4.—A pleasure yacht on the Maumee river capsized near Ironville, and it is believed the entire company aboard, consisting of nine men and women, were drowned.

## A DARING ATTACK

Made on the Stronghold of Bandits by American Soldiers.

Washington, Sept. 4.—General Otis cabled the war department a dispatch which he received from General Hughes, commanding the American forces at Iloilo.

General Hughes said: "Lieutenant Colonel Byrne on August 31 destroyed Argogula, most important bandit stronghold, killing 21, wounding many, capturing large quantities of supplies, complete outfit reloading shells, bolos, spears, etc. Feat remarkable as town is accessible only by a road on and almost perpendicular slope, constantly under fire for 1,000 feet; one officer and two men struck by boulders rolled down on them, but not seriously hurt; no casualties reported. Bandit strength 400."

### Killed the German.

Charleston, S. C., Sept. 4.—The British steamer Woodruff arrived from Hamburg. On Aug. 31 250 miles south of Charleston, the Woodruff picked up Maurice Aderson and Goodmund Thomassen, survivors of the Norwegian bark Drot, wrecked Aug. 15 off the Florida coast. The Drot was bound from Pascagoula to Buenos Ayres. Aderson is a raving maniac and his companion is shockingly mutilated from bites of the crazed man. The captain of the Drot and seven seamen were swept overboard. The mate and seven other men put to sea on a raft. The raft parted soon after and the mate and one man were separated from the others. The mate's companion was landed at Philadelphia by the German steamer Titania on Aug. 22. He stated that the mate committed suicide. Of the other six men three jumped into the sea. Anderson, Thomassen and a German seaman drew lots as to which should be eaten as none of them had had a mouthful since they took to the raft. The lot fell to the German. He was killed and the blood was sucked from his veins by the two survivors.

### Shots Exchanged.

Wilkesbarre, Pa., Sept. 4.—John Pollock was shot and killed, William Thayer was seriously wounded and about eight men were hurt in a fight between the strikers at the collieries in West Pittston and a repair gang. During the night a lot of top rock fell in the mine and Watchman William Thayer got five men together to make repairs. As they reached the mine the strikers blocked their way and threw stones. The men ran to the "headhouse" for shelter, whereupon the strikers opened fire upon them. Thayer fell badly wounded. The others returned the fire, killing John Pollock, one of the strikers. About 500 men are involved. They are striking against excessive dockage.

### To Remove Soldiers.

Washington, Sept. 4.—The war department is making every effort to secure the removal of the two batteries of artillery garrisoned at Keywest but has so far been unable to do so because of the strict quarantine drawn by the Florida state officials. Surgeon Wyman, of the marine hospital service, has undertaken to secure the removal of the troops. If he succeeds the soldiers will be taken directly from the wharf at Tampa on board the train to Atlanta and placed at Fort McPherson. Otherwise the war department will be obliged to send a government transport to Keywest and bring the men north.

### Notified of the Strike.

Washington, Sept. 4.—The Cramp Shipbuilding company of Philadelphia has given formal notice to the navy department of the strike now occurring in their yards. This is in accordance with the contract for the building of the battleships Maine and Alabama, which provides heavy penalties if the ships are not turned over to the government on time, but proviso makes the penalties applicable only when delay "shall not be caused by a strike or stand out of workmen."

### Rioters Not Convicted.

Darien, Ga., Sept. 4.—After three days the rioters on trial have not been convicted. The first jury retired and afterwards the judge called a second bunch of five and court sat until a late hour getting evidence and hearing arguments. The court then adjourned and the jury retired. Up to noon they had not reached a verdict and it is feared they will not agree as the evidence against one of them was not as strong as against some of the others.

### Arrival of Indians.

Washington, Sept. 4.—The following has been received at the war department from Otis at Manilla: "Transport Indians arrived, one casualty, unassigned recruit. Orville Mercer died Aug. 30, typhoid fever." The transport Indiana sailed from San Francisco Aug. 2, 10 officers, 807 recruits, Colonel C. B. Hood, Sixteenth Infantry, commanding.

## A NOTABLE STRUGGLE

For Supremacy Between Whites and Blacks in Carolina.

## TO ELIMINATE THE NEGRO VOTE.

Campaign by Both Parties on Amendment to the Constitution Imposing an Educational Qualification on the Colored Man.

Atlanta, Ga., Sept. 4.—A local paper publishes a sensational story from its special correspondent, who has recently been in North Carolina to study the campaign commenced there by the white people, both Democrats and Republicans, to disfranchise 100,000 negro voters in that state.

The article says: "North Carolina has just entered upon one of the most eventful campaigns in her history. It is a death struggle between the Anglo-Saxon and the American, and when the smoke of battle will have cleared the state, the political and social supremacy of the white man of North Carolina for the time and for all time will either be absolute and unconditional, or else negro domination will again immerse the state into ignominy and disgrace.

"This campaign is waged on a proposed suffrage amendment to the constitution, submitted to the people by the last legislature. It was designed for the single purpose of eliminating the negro as a political factor and it is a notable fact that the educational qualifications enjoined on the negro is not expected of the white man. It is not intended that an Anglo-Saxon shall be disqualified.

"Every person of eligible age, who applies for registration, for instance, must be able to read and write any section of the federal constitution.

"Under this clause 100,000 incompetent negro voters in North Carolina will be forever barred from the polls. But the ignorant white voters—and there are perhaps thousands of them—can enter through another gate.

"Section five provides that any lineal descendant of any voter in this country, prior to 1867, shall be entitled to vote whether he can read or not.

"It is more than a political fight; it is a fight in defense of home and decency. It is a constitutional decree that the Anglo-Saxon shall govern this state. On this platform the Democracy stands. The Republicans have challenged this amendment for party protection. The issue has been joined. For 30 years it has been dodged, evaded, beclouded. It is to the point now. It is the crucial test between southern Republicanism and southern Democracy."

### Work of a Mob.

Santo Domingo, Sept. 4.—Members of the retiring cabinet of Former President Figueredo have been detected loading a lot of arms and ammunition on board schooners, which they intended to send to Azua. This discovery caused great excitement in the city and led to serious demonstrations. Large crowds quickly formed in the streets, a majority being young hot-headed men who marched up and down the thoroughfares in disorderly mobs, shouting "Viva Jiminez" and "Viva Revolution" at the top of their voices. A great throng finally gathered around the governor's palace, angrily demanding that the ministers should at once relinquish all their powers. The mob then broke into the palace and destroyed a painting of the late President Heureaux hanging in one of the rooms.

### Will Send No Warship.

Washington, Sept. 4.—The state department has decided that it is not feasible or necessary to send a warship to South Africa. Such a vessel, it is said, could get no nearer the Transvaal than Delagoa bay and as this is Portuguese territory it would not be possible to send marines or sailors across the country even were it desirable to do so. Therefore the department will rely entirely at this stage upon the discretion of Mr. Mac Crum, consul at Pretoria for the protection of American interests in the event of war.

WEATHER FORECAST.—Fair to-night; Tuesday fair and warm.

A MATTER that might be looked after with profit to the county is the hauling of heavy loads over the free turnpikes. Under the toll system it was seldom that anything larger than a two-horse load was seen on the pikes, but since the gates have been taken off it is no uncommon thing to see four horses and sometimes six. These immense loads, especially when the weather is wet, are apt to do serious damage to the pikes. There is no reason why the pikes should be abused because they are free, and some restrictions along this line might be of benefit to the pikes and the taxpayers who keep them up.—Fleming Gazette.

A law requiring all vehicles for heavy traffic to have broad tires would remedy this trouble and save taxpayers many a dollar.

AMERICAN beef is sent to London and sold for less than it is sold for in this country. That is an example of what a trust can do. They have the home market so completely by the neck that any cut in price in a foreign market can be retaxed on the home consumer. The Chicago meat packers admit that they are selling cheaper on the other side of the world than on this, but say they have to do so in order to compete with the Australian packers. If Australian packers could enter our market American consumers would get some of the benefits of competition. The trust's mother, the tariff, guards every entrance and protects the robbing packer, not the people.—Georgetown News-Democrat.

Oh, well, what are you kicking about, Br'er Eylar? Haven't these trusts a right to do as they please under a Republican administration? They can rob their home people as much as they please, and favor the foreigner, too, at the expense of the home market. Mr. McKinley's Attorney General won't molest them.

THE present Commissioner of Pensions, the Hon. Henry Clay Evans of Tennessee, is an honest man and a faithful vigilante officer of the government.

He is doing his duty to the honest veterans entitled to pensions, and at same time he is doing his duty to his employers, the people of the United States, in protecting the treasury against the schemes of dishonesty and the follies of recklessness.

No wonder Commissioner Evans has won for himself the hearty hatred of that class of pension applicants who proceed on double claims and thrive by loose construction of the laws. No wonder he has excited fierce indignation in the offices of the shark pension attorneys.

The result of fidelity and vigilance is shown in this brief exhibit:

Additions to the pension list in the year ending June 30, 1898..... 64,351

Additions to the pension list in the year ending June 30, 1899..... 40,981

For the first time in twenty years there is actually a net decrease in the pension list, thanks to Commissioner Evans' honesty and courage.

This is a credit to the Republican administration. The Republican President who appointed this honest and fearless Commissioner is going to stand by him.—New York Sun.

What a howl would be raised of a Democratic paper would talk this way? The Sun is President McKinley's mouth-piece in New York and the old veterans who don't like such talk as above will have to grin and bear it.

### ANOTHER BOND ISSUE.

"The country is drifting to another bond issue. The subject is already calmly discussed in Treasury Department circles," says the Enquirer of Cincinnati. "Congress is an inconvenient institution in a Presidential campaign, and the administration is anxious to have the legislative department of the Government quietly pass the appropriation bills—appropriate millions of dollars more than are coming in—and go home. There will be a lot of new members in the House of Representatives, and they will not be under the restraint of Tom Reed's gag. They will be ambitious, and may differ seriously with the administration. They will be fresh from the people, and anxious to exploit the popular grievances. They will, however, be afforded as little opportunity as possible.

General Henderson is an intense partisan—one of the sort who may have stubborn views of his own, but who will finally fall in with Hanna and McKinley and be 'regular.' Congressmen who do not fall in with the Boss program will be told that they are traitors and do not want to make appropriations to carry on the war.

"Already there is official 'figuring' on how bonds may be issued without the assistance of Congress. Pending the war with Spain for the liberation of Cuba the war revenue law authorized the issue of \$100,000,000 of certificates of indebtedness, and \$400,000,000 of bonds. Two hundred millions of these bonds were issued. The law provides that the proceeds of the sale of those bonds shall be used to defray expenditures authorized on account of the existing war, such proceeds, when received, to be used only for the purpose of meeting such war expenditures."

"It is announced that law officers of the Government hold that the 'insurrection' in the Philippines is to all intents and purposes a part of the 'existing war,' and that the power to issue bonds still resides with the Secretary of the Treasury.

"This is stretching a point to a dangerous tension. This is 'the same old war,' or an entirely new fight, according to the exigencies of the Government. There was a treaty of peace with Spain, and the Government of the United States paid \$20,000,000 for the Philippines, with the privilege of capturing them if it could. That closed our war with Spain, and we now have a Minister residing at Madrid, and Spain is peacefully represented at Washington.

"The wars are distinct. One was declared by Congress and closed up by a treaty of peace. The other was inaugurated by the Executive department.

"Should not wonder if the President would be compelled to allow Congress to fool with the situation."

### REPUBLICAN TESTIMONY.

H. D. Gregory, a Covington Lawyer, Praised the Democratic Nominee for Governor.

H. D. Gregory, a Republican lawyer of Covington, was asked by the Stanford Journal man what he knew about the charges the L. and N. papers make that Goebel goes armed to the teeth when at home and keeps a regular body guard. His answer was: "I have been living in Covington for two years, and I have never heard of such a thing. On the contrary, no man conducts himself better nor stands higher."

Mr. Gregory continuing his statement, said: "I have been asked if the bum element was not for him, and my reply has been, it is always for the man in power. It was for Harvey Myers till he was dethroned by Goebel, whose word now is law in Covington. I shall not hesitate to say that I am heartily for his Fellow-servants bill and the McChord bill. I am, however, strongly opposed to his Election bill and will always be.

"Goebel's fight for the people against corporate encroachments has made him friends even in my party, many of whom, like myself, think if he is elected Governor, he has the backbone to see that railroads and other corporations are kept within the bounds for which they were intended.

"You may say in as strong terms as you can that any charge against the personal character of Senator Goebel is false in every particular."

### UPHOLSTERIES.

A few unusually good values in odds and ends of tapestries, brocades, velours and corduroys, the leftovers from a season of busy selling. If there is a piece of furniture that is turning shabby, this is your opportunity to recover it, to make it look like new at a trifling cost. A handsome and artistic line of silkolines, denims and drapery silks also in display.

### VEILINGS.

They say dotted veils injure the eyes. But what force has the argument if dotted veils are stylish—as they are? But we have some veils just arrived with the dots widely spaced—that helps solve the difficulty. You won't have to strain your eyes looking for the savings, either. These stylish new Veils are only 25c. Black, white and blue.

### DEATH IN A WELL.

A Terrible Fatality Occurred Saturday at Noon Near Lowell.

One by One Three Brothers Went Down in a Well and Were Suffocated by Foul Gas.

The home of Mrs. Frank Campbell, a widow residing near the little village of Lowell, this county, was the scene of a terrible fatality at half-past 12 o'clock, noon, last Saturday.

In the space of a few minutes, three of her sons, large robust fellows, in the prime of young manhood, perished, one by one, in a well. Two met death in a heroic effort at rescuing the ones who had first gone down.

The well, this hole of death, is twenty-seven feet deep. During the present drought, the vein that fed the well ceased to flow and it was decided to make a blast in hopes of opening up the rocks in the bottom and securing a fresh supply. Powder was used in making this blast and it was touched off Saturday day about noon.

After waiting some time one of the brothers went down to remove the rock and see what effect the blast had had. Soon after reaching the bottom he called to those above in a weak voice to come to his help. They told him to get out at

once, but after ascending a few steps he fell back unconscious.

Another one of the brothers immediately went to his rescue, only to meet a like sad fate, and then the third went down in a heroic effort to save the two who had gone before. He too was overcome by the deadly gas.

Some of the neighbors were present but were so frightened at the awful fate of the young men that an hour or so elapsed before any one ventured to go down after the bodies. Then a gentleman, whose name was not learned, volunteered to make the effort. A rope was attached to him and taking an extra rope he made the descent and the bodies were taken out. At last accounts this neighbor was reported in a critical condition, as a result of the gas he inhaled.

Efforts to resuscitate them were unavailing. The grief of the widowed mother over the terrible fate of her sons was heartrending. Rufus Henry, George W. and Robert were the names of the unfortunate sons, and they ranged in age from twenty-two to twenty-seven years. One of them leaves a wife and young child. They have one brother, who happened to be absent from home at the time. Had he been present he too would in all probability have also gone to his death.

Funeral services were conducted Sunday afternoon at the residence and then the remains were laid to rest at Shannon.

### FLOOD OF WHISKY

On the Market is Now Expected by the Dealers.

LOUISVILLE, Ky., August 31.—It is the opinion of local whisky men since the return of their representatives from the East that there will be merry times in the whisky trade during the coming year.

The trust has announced that it will make what amount pleases it, and that in addition to 8,000,000 gallons of high-grade whisky it will manufacture 5,000,000 gallons of low grade, which will be sold at about 50 cents.

The independent distillers will have no concert of action, but it is claimed they can distill just as cheap, if not cheaper, than the combine.

There will probably be a flood of low grades at very low prices.

## Boys,

We dislike mentioning it, but going-back-to school time is nearing.

## Superior and Kentucky DISC DRILLS

Are King and Queen of all Drills. Their superiority over all competitors are too well known to need comment; suffice it to say that we placed over sixty of these Drills the past season and have yet the first complaint from a single purchaser. On the other hand every one who used them stand ready and willing to give their testimonial to the superior work done by them, and their unanimous verdict is if you expect to purchase a Drill this season get either the

### SUPERIOR OR KENTUCKY

and no other. Do not delay placing your orders and there will be no disappointments, as is the case each season when we are forced to resort to the river and express, which makes an additional expense. Every Drill is warranted to be just as represented. Do not allow yourself to be talked into buying some inferior Drill for the sake of saving a few dollars. Remember the cheapest is not the best, but the best is always the cheapest. Respectfully,

### KILLED BY THE F. F. V.

Mrs. Nancy Wilson Met Death Saturday Afternoon Near Her Home in Wilson Bottom.

Mrs. Nancy Wilson, widow of Mason Wilson, was run over and instantly killed by the eastbound F. F. V. train on the C. and O. Saturday afternoon at a crossing on her farm in Wilson's Bottom, Lewis County.

Mrs. Wilson had been spending the day at the home of one of her sons, taking care of his children while he and his wife made a trip to Manchester. On their return she started to her home and to reach it had to cross the railroad. The unfortunate woman had on a sunbonnet and was carrying an umbrella, and this no doubt prevented her from seeing the approaching train.

Deceased was seventy-four years old. She was a Miss Henderson, and was a woman who was held in high esteem in the community.
